

ABCD HOME ENERGY ASSISTANCE, WEATHERIZATION AND CONSERVATION

no cost energy programs and services for income
qualifying households

Offering many of no cost energy programs and services to income qualifying residents of Boston, Brookline, Newton and the Mystic Valley cities and towns of Malden, Medford, Everett, Melrose, Stoneham, Winchester and Woburn, ABCD can help you stay warmer, cooler, safer and greener!

FUEL ASSISTANCE

Through this federally funded program, we can help pay your heating bills during the winter season, November through April. If your heat is included in your rent in non-subsidized housing, you may also qualify for help with your rent. If you qualify for the program, you'll also automatically receive discounted gas and electric rates.

WEATHERIZATION

Our Weatherization Assistance Program (WAP) helps keep your home warm in winter and cool in summer – and lowers your bills along the way. We can install attic and wall insulation, weather stripping, and air sealing at no cost. In fact, if you use oil, electric or gas heat, you could receive improvements totaling \$5,000 on average through the U.S. Department of Energy and our local utilities National Grid and Eversource.

HEATING SYSTEM REPAIRS AND REPLACEMENTS

In emergency no-heat situations, it's possible for homeowners and, in some cases, tenants to receive heating system repairs. In addition, heating system replacement will be considered for inoperable or inefficient furnaces and boilers. During the spring and summer, we can also perform system tune-ups for both owners and renters.

UTILITY EFFICIENCY SERVICES

The electrical appliance audit program is designed to help you reduce your electric bill. ABCD conducts an assessment of all major appliances to determine high usage and to provide a savings plan. Clients will receive energy efficient light bulbs, water conservation materials and possibly a new refrigerator, freezer, window air conditioner, dehumidifier or front loading washing machine if the existing appliance is using too much energy.
